Some people regard private enterprise as a
predatory tiger to be shot.

Others look on it, as a cow they can milk.

Not enough people see it as a healthy horse,
pulling a sturdy wagon.

(Sir Winston Churchill)

Modify
Troubleshoot

Pieces Include

Various disciplines
Research labs
Development skills
Engineering work
Test facilities
Test capacity
Analytical skills
Scope change

Not To Mention....

Successful Completion Of The Puzzle

STOCHASTIC NEED

Various human capacity

Various lab assets

but ..

At **various** points

For **various** length of time

With **various** intensity

In **various** combination

STATIC OPERATIONAL QUALITY

Just-in-time..

On the spot..

High quality..

Low cost..

Well coordinated..

Well managed..

**IT'S
EASY**

To find a solution

Texas Institute of Science

That's Not All ...

During Market Downturn

As engineers leave the field, the number of missing puzzle pieces is greatly increasing

The Net Effect

As technology
capacity shrinks

Technology teams need
more and more
dynamic augmentation to
complete their project

The Solution: *augment TO enable*

(In TxIS's case)

Next Generation Engineering Model Provides

Engineers
and
Labs
At Your

The Result:

**Your Existing Capacity + Our
Augmentation**

Clarity

**Successful completion of the
puzzle**

High quality results

Low cost

40% faster time-to-market

Texas Institute of Science

Take Away

The model has the built-in ability to:

Secure ***ALL IP RIGHTS*** for you

Provide ***IMMEDIATE ACCESS*** to the required expertise

Provide ***DYNAMIC AUGMENTATION*** structure

Texas Institute of Science

To improve is to change;
to be perfect is to change often
