

CASE STUDY: Overview of “nanotechnology” specific to nanotube conductor

INDUSTRY	Oil& Gas
PROJECT NAME	Overview of “nanotechnology” specific to nanotube conductor
PRODUCT TYPE	Whitepaper
DESCRIPTION	provide an overview of the materials and technology available for producing nanotube conductor
RESULT	Project deliverables included: 1- a survey of industries that are actively using nanotube conductor technology 2- a whitepaper including an overview of materials and technology for the production of nanotube conductor, and their suitability to the application required
DURATION	2 months

File DOC-10 Overview of “nanotechnology” specific to nanotube conductor
